

**Mineral Blush Powder - Desert Rose Silk (matte/shimmer)**

(cool pinky mauve)

**Mineral Blush Powder - Apricot Dew Silk (matte/shimmer)**

(warm orangey pink)

**Mineral Blush Powder - Ginger Blossom Silk (matte/shimmer)**

(neutral peachy beige)

Using only pure, refined minerals, Miessence Mineral Blush Powders provide buildable colour with a choice of matte colours for daytime use (Silk) or shimmering colours for glistening evenings (Satin). Delicately scented with pure organic rose otto. Translucent mica reflects light, reducing the appearance of pores, whilst allowing your natural skin tone to show through.

Why?

The Silks look very light in the container. Once they are applied, they darken on the skin. The Satins look similar to the colour they will be when applied on the skin

How?

For a natural look: apply sparingly with a blush brush. For more colour: apply with a sponge.

Ingredients

Mica, sericite mica, organic rose (rosa damascena) essential oil. May contain: +/- iron oxides.
