

Garnet Exfoliant (normal skin)

Polished alluvial garnet works effectively to clear congestion resulting from a build-up of dead, dry surface skin cells. The best scrub ever, with a fresh citrus blend of organic lemon, bergamot and orange.

Why?

A build up of dead skin cells causes a rough and dull appearance. Exfoliating the top layers of dehydrated cells promotes a youthful, glowing skin.

When?

A few times a week for normal/combination/oily/clogged skin. Do not exfoliate blemished skin, to avoid spreading infection.

How?

Squeeze a small amount of exfoliant onto damp fingertips and GENTLY massage onto damp skin using a small circular motion, paying particular attention to T-zone if necessary.

Ingredients

Organic aloe vera (aloe barbadensis) leaf juice, alluvial almandite garnet, natural gum (sclerotium rolfsii), organic lemon (citrus limonum) essential oil, organic bergamot (citrus bergamia) essential oil, organic sweet orange (citrus dulcis) essential oil, organic grapefruit (citrus paradisi) seed extract.
